EDUCATION

University of California, Riverside - *Certificate Full Stack Web Development*

July 2020 - January 2021

PROJECTS

The Long Cut - [Github Repo](#) | [Live Link](#)   **2020**

Led a team of four, in developing a full web application that provides Long routes for car cruising. Application has been made, to provide maps, via Google Maps API. Besides Long routes through scenic environments, it also provides a range of lesser known California hiking trails. Maps API, provides an array of useful information, for your driving or hiking needs. Responsibilities included

Tools Used to construct Website: HTML-5, CSS, Vanilla JavaScript, GoogleMaps Api, Giphy Api.

Weather Dashboard App - [Github Repo](#) | [Live Link](#)   **2020**

Developed a Weather Dashboard App that is mobile Responsive Friendly. App allows users to request a 5 Day weather forecast, based on either Location, or user input. Open Weather Map Api, provides weather with current and future conditions for that city and that city is added to the search history. Weather conditions provided: temperature, humidity, wind speed, and UV index.

Tools Used to construct Website: HTML, CSS, BootStrap, Open Weather Map Api, Javascript, JQuery
