Projects

The Long Cut - [Github Repo](#) | [Live Link](#)   **2020**

Lead a team of four, in developing a full web application that provides Long routes for car cruising. Application has been made, to provide maps, via Google Maps API. Besides Long routes through scenic environments, it also provides a range of lesser known California hiking trails. Maps API, provides an array of useful information, for your driving or hiking needs.

Tools Used to construct Website: HTML-5, CSS, Vanilla JavaScript, GoogleMaps Api, Giphy Api.
